

Upper Valley Life, May 2007

The Family Place Parent Child Center supports the positive growth & development of families with young children by building upon individual strengths.

Reaching families with the youngest children requires significant investments in resources and funding. The payoff is a healthy community, built one family at a time.

We know prevention works. Instead of investing in repairing the damage done to children from abuse and neglect, when you contribute to The Family Place, you are investing in the health and well-being of generations to come.

Eighty percent of funding received by The Family Place is restricted by program and category, making giving from individuals *critical*.

Your support makes a measurable difference in the quality of so many lives here in the Upper Valley.

Please, give generously. Thank you.

The Family Place Parent Child Center provides the most comprehensive parenting information available in the Upper Valley for parents of children birth to age 6.
